

MASTER OF ARTS PROGRAM IN POPULATION POLICY AND HUMAN DEVELOPMENT

ABOUT THE PROGRAM

The Program is designed to focus on key issues in policy for population and human development ranging from demography, population ageing, migration, resources, and environment relating to population changes, and public policy design.

Highlights of the Program

- The Master of Arts Program in Population Policy and Human Development is the first master's program in Thailand with the aim to provide the top-notch knowledge in Demography applied to population policy and human development at the national and organizational levels.
- The program provides demographic training by using an interdisciplinary approach from various theoretical and practical perspectives.
- Students can apply their in-class knowledge to the policy sandboxes, and policy labs collaborated with Chulalongkorn University Platform for Ageing Research Innovation (Chula ARi) and other governmental units.

Career Opportunities

Master of Arts in Population Policy and Human Development is designed to provide intellectual resources and tools needed in developing population and human development policies and practices. Career opportunities include policymakers, human resource managers, professors, researchers, government officers, and officers/executives in international agencies and private organizations.

PROGRAM STRUCTURE

Admission Requirements

Students can be admitted into one of the two plans: A2 or B.

	3. Must have English proficiency score which meets one of the following tests below. The test must have been taken within the last two years. CU-TEP With a minimum of 60 TOEFL With a minimum of 525 IELTS With a minimum of 5.5

Program Duration

The one-year Master's program follows the trimester system in which the academic year is divided into three sessions: the first session from August to November, the second session from December to March, and the third session from April to July. Each trimester lasts approximately 15 weeks. Students are required to complete their coursework in the first two trimesters. Thesis proposal or Independent Study (IS) defense often takes place during the second trimester of the program. Students then take 1-2 trimesters to work on their thesis or Individual Study (IS).
